

Dear Admissions Committee,

I am writing to express my interest in applying for the MA in Statistics at Harvard University. My academic background and professional experiences have prepared me well for this program.

I hold a Bachelor's degree in Economics from Renmin University of China, where I developed a strong foundation in quantitative analysis and economic theory. During my undergraduate studies, I conducted research on digital economy, which was published in Review of Economic Studies . This experience sparked my passion for DeFi, and I am eager to further my knowledge and skills in this area through your esteemed program.

In addition to my academic achievements, I have gained practical experience through internships at Google and Tencnet, where I worked on Industry research and data analytics. These experiences have honed my analytical and problem-solving skills, and I am confident that they will enable me to contribute meaningfully to your program.

I am particularly drawn to Harvard University because of its renowned faculty and cutting-edge research in platform economy. I am excited about the opportunity to learn from and collaborate with leading experts in the field.

Thank you for considering my application. I look forward to the possibility of contributing to and benefiting from the academic community at Harvard University.

Sincerely,  
Ray Zhang
